ABOUT BUJEIS

Baze University Journal of Entrepreneurship and Interdisciplinary Studies (BUJEIS) is a double-blind peer review multidisciplinary research and development journal, geared towards improving the quality of scholarly research through the development of innovative online publications and knowledge-sharing environments across a wide spectrum of disciplines.

BUJEIS features contemporary theoretical developments and cutting-edge research that challenge established beliefs and paradigms and offer alternative ways to cope with the disruptive dynamism in the academic-industry-market space, as it pertains to Nigeria in particular and Africa in general. BUJEIS manuscripts target audiences in the Academics, Executives, Industries and Policymakers

Being an Interdisciplinary journal, the subject coverage of BUJEIS spans: Accounting, Agriculture and Forestry; Banking & Finance; Biological Sciences; Business Administration and Management; Business Law; Chemistry; Communication Studies; Creative and Cultural Industries; Criminology; Earth Science; Economics & Development Policy; Education; Engineering and Technology; Electrical Engineering; Entrepreneurship; Gender Studies; Global Business; History; Human Resource Management; Information and Communications Technology (ICT); Language and Linguistics, Management Information Systems (MIS); Marketing; Mathematics, Maritime Studies; Organizational Behaviour & Development; Physics; Political Science; Law and Governance; Psychology, Small Business Management; Sociology; Surveying & Geoinformatics Technology & Innovation Management; Tourism & Hospitality Management; Transportation & Logistics, and other multidisciplinary studies.

*PhD, MBA, FCTI, RPA, CFA, AM(M), FCA.
Associate Professor
Universiti Utara Malaysia, Malaysia*

EDITORIAL COMMENT

Baze University Journal of Entrepreneurship and Interdisciplinary Studies (BUJEIS) is an entrepreneurship oriented, interdisciplinary, peer-reviewed journal with the mandate to publish well-researched academic articles from interdisciplinary faculties of institutions within Nigeria, Africa and Global communities at large. The journal is being hosted by the Centre for Interdisciplinary Studies (CFIS) of Baze University, Abuja, Nigeria. BUJEIS provides a collection of scholarly researched articles on contemporary entrepreneurship and multidisciplinary matters. The journal was conceptualized to bridge the gap created by dearth of highly reputable entrepreneurship oriented interdisciplinary academic journal within Nigerian Universities. The journal therefore provides a platform for publication of studies which effectively capture developments in entrepreneurship world and academic research in interdisciplinary areas targeted to serve international academic and research communities as well as other policy makers in both private and public institutions.

BUJEIS is an online journal with three editions published every year in: February, June and October. Printed version of the journal shall, however, be produced for the authors and interested general public on demand. The journal emphasis is on empirical, applied, and policy-oriented research in entrepreneurship and interdisciplinary studies. Common empirical methods including (but not limited to) qualitative, quantitative, or triangulated methods and content analysis are prevalent among articles published in this journal.

With great delight, I forward the third edition of **BUJEIS**. This edition has articles from varied disciplines (Survey & Geoinformatics, Electrical & Civil Engineering, Finance and Accounting, Economics, Entrepreneurship, Environmental Sciences, Peace, Conflict and Security and others) by authors from different universities within Nigeria and abroad. We hope that this journal shall continue to attract the attention of academia within and outside Nigeria and also make positive contributions towards academic research activities in international community.

On behalf of the editorial board, I sincerely appreciate our Vice-Chancellor and the entire management of our institution for their unflinching support towards making this edition a reality. Also appreciated are: our contributors, reviewers, and readers. It is my earnest hope that this journal shall continue to serve the purpose of motivating the academic community into deeper research in entrepreneurship and interdisciplinary areas.

Emeka Emmanuel Ene (Ph.D.)
Professor of Financial Economics
Chief Editor

CONTENTS

1. Economic Risks and Foreign Direct Investments (FDIs) In Sub-Saharan Africa
- *Oni, Olusegun, O. Abdulrasaq, Salaudeen, F. & C-Oluwatosin, Tope, J.* 1 - 18
